PROFESSIONAL SUMMARY

Cybersecurity Engineer with practical experience in firewall configuration, endpoint security, SOC agent deployment, vulnerability assessment, and security monitoring across client environments. Skilled in firewall policies, NAT rules, basic VPN support, log review, alert triage, and security configuration checks.

EXPERIENCE

Cybersecurity Engineer

Zoffec Infotech Pvt. Ltd.

Oct 2025 – Present

Mumbai, India

- Configured and maintained firewall policies, access rules, NAT rules, and traffic filtering settings across multiple client environments.
- Implemented network security controls to restrict unauthorized access, manage allowed traffic, and support secure client network operations.
- Supported basic IPsec VPN configuration and troubleshooting for secure connectivity between client locations and remote networks.
- Deployed SOC agents on client endpoints and verified agent connectivity, visibility, and reporting status for security monitoring.
- Reviewed security alerts and event logs to identify suspicious activity, validate potential threats, and reduce false positives.
- Performed vulnerability assessments and security configuration checks to identify exposed services, weak configurations, and security gaps.
- Supported endpoint security deployment, policy configuration, and troubleshooting to improve protection across client systems.
- Investigated firewall, VPN, endpoint, and network connectivity issues to support timely resolution and minimize operational impact.
- Documented security configurations, issue observations, and remediation steps to support internal tracking and client communication.

TECHNICAL SKILLS

Firewall & Network Security: Sophos Firewall, Firewall Policies, Access Rules, NAT, Traffic Filtering, Basic IPsec VPN Support, Network Troubleshooting

Security Operations: SOC Agent Deployment, Security Monitoring, Alert Triage, Log Review, Incident Support, False Positive Validation

Endpoint Security: Endpoint Protection, Agent Deployment, Endpoint Policy Configuration, Windows Security, Client System Troubleshooting

Vulnerability Assessment & Security Testing: Nmap, Wireshark, Burp Suite Basics, Vulnerability Assessment, Security Configuration Checks, Basic Pentesting

Networking Fundamentals: TCP/IP, DNS, DHCP, HTTP/HTTPS, Ports & Protocols, Routing, Switching, OSI Model

Web, API & Application Security: OWASP Top 10, Authentication, Authorization, Session Management, REST API Security, Secure API Handling

Tools & Platforms: Linux, Windows, Virtual Machines, Git, GitHub, Docker, Postman, AWS Fundamentals

Programming & Development: Python, JavaScript, TypeScript, Java, Node.js, Express.js

CERTIFICATIONS

Sophos Firewall Certified Engineer

Sophos

Issued: 2026

EDUCATION

M.H. Saboo Siddik College of Engineering, Mumbai

Bachelor of Engineering in Information Technology

2021 – 2025

CGPA: 9.06/10
